

EasyDent Practice Analysis

EasyDent provides many different types of “Practice Analysis” reports. The document contains examples of how to run a few different analysis reports along with sample results.

Example Reports are:

1. Procedure Code breakdown based on production: *detailed* and *by category*.
2. View an entire year’s statistics on one page
3. Quickly compare this year to last year
4. Evaluate how well are you doing with recall for patient cleanings?
5. Patients overdue for recall for the most recent, 24-month period.
(Output of this report can be used to send Recall Cards, Letters, Emails and/or Texts)
6. Where are your patients coming from? How much are they worth?
7. How much are new patients worth their first year with the practice?
8. Graphical overview of several practice statistics

In addition: you can create your own excel spread sheet of detailed ledger transactions for any date range as follows:

- From the Utility Menu select “*Advanced Utilities*”
- Then use the “*Export Transactions*” option

1. Procedure Code breakdown based on production: *Detailed and By Category*

- Select the Reports Menu “Monthly Reports” Option
- Set the desired date range on the top right-side
- On the right-hand side check the option “Procedure Code Analysis”
- Select the “Options” button to the right of “Procedure Code Analysis”
- Check “Select All - Ignore List of Numbers”
- Run the Report!
