IMPORTANT: Microsoft *WINDOWS 7* END-OF-SUPPORT NOTICE

Microsoft to Discontinue Support of Windows 7 on January 14, 2020

Dear Doctor & Staff,

Microsoft has announced they will no longer provide security updates or support for PCs running Windows 7, effective January 14, 2020.

We recommend you upgrade to Windows 10 as soon as possible.

You can easily see if your computer is using Windows 7. While on the **EasyDent Primary Menu**, press the **F11 key** on your keyboard. If you are using Windows 7 you will see a display that contains a line similar to the one below:

<code>Windows System</code>	<code>= Windows 7 / Windows Server 2008 R2</code>
-----------------------------	---

Many computers can be upgraded to Windows 10; you may not need to buy new computer(s).

Contact your hardware support technician(s); they are best-equipped to check for Windows 7 and help you decide how best to upgrade.
